LOOK TRAILERS®

RACE & AUTO TRAILERS

TRAILERS THAT WORK FOR YOU

looktrailers.com

AN IMPRESSIVE TRACK RECORD

LOOK Trailers has been building innovative, quality, durable race and auto trailers for over 10 years. Whether you are a weekend warrior, classic car collector or high mileage professional, LOOK builds a wide selection of race trailers for just about every hauling need. When the road is your home, it's a good feeling knowing you have the best quality trailer behind you.

We understand that when you're hauling valuable cargo, the last thing you should have to think about is your trailer. That's why we build our trailers with high-quality components and go the extra mile to ensure each trailer is safe to haul your precious cargo. From our economy car haulers to our premium race trailers, LOOK trailers are just built better. Tube main rails and roof bows offer increased strength and longevity. LED lighting provides increased visibility, and all of our trailers come standard with a stoneguard for added protection. Radial tires on most models ensure a smooth ride, and a one-piece aluminum roof offers increased protection from the elements. These are just some of the many standard features that set our trailers apart. And don't forget, along with our trailers' impressive styling there's an almost unlimited array of racer-friendly options.

Our race trailers are designed to be hassle-free for the long haul; but for additional peace of mind, all of our race and auto trailers come standard with a 3-year or 5-year limited warranty. A nationwide dealer network and outstanding customer service are even more reasons you'll take pride in owning a LOOK Trailer.

CHOOSE THE RIGHT AUTO TRAILER FOR YOUR HAULING NEEDS

LOOK has a trailer for every car hauling need. Our **economy trailers** are perfect for light-duty hauling. Others may skimp on their economy lines, but our ST models are built with tube frame, LED tail lights and a thick 3/4" high performance floor. Our **mid-line trailers** are perfect for every-day hauling and are loaded with features for exceptional value. If you are a professional racer or just want the best LOOK has to offer, you may want to choose one of our **premium models**. These heavy-duty trailers are packed with the most high-end features and come standard with a limited 5-year warranty.

THE LOOK TRAILERS ADVANTAGE

LIMITED 5 YEAR WARRANTY

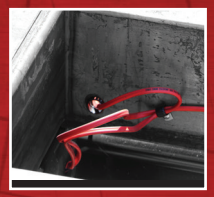
Standard on Premium Models

1. TUBE MAIN RAILS

Lighter than I-Beam competitors while providing more torsional rigidity. This design means our trailers will haul more and last longer. This manufacturing style is more costly than I-Beam, but your cargo is worth it.

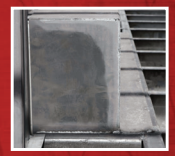
2. FULL HEIGHT Z-CROSSMEMBERS**

Standard on all steel frames, Z-shapes maximize strength without adding weight. This provides you with a true unibody frame.



3. FULLY WELDED WHEELBOXES*

Protect your valuables from the elements by tying the wheelbox to the dust-proof wall. This prevents dust and debris from blanketing your cargo.



4. REINFORCED PLATE**

7ga steel bentline reinforces the tongue assembly to the main rail. This distributes the forces over a wider area and picks up the full strength of tube tongue members.

5. DUST WALL DESIGN

Featured on 8.5' models, it prevents dust and water kicked up by turbulent wind from entering the trailer and inner wall cavity. Additionally, this wall strengthens your trailer by becoming a structural component. All other models are sealed by the wall sitting on the frame rail.

6. TUBE ROOF BOWS

Standard on all frames, tube bows provide superior strength over hat channel bows. The crown in each bow helps shed water versus a flat roof. Crowned tube bows transfer vertical loads to the sidewall, making your trailer stronger.

7. ELECTRIC BRAKES

Brake connections are made with gel-coat fittings because we don't cut corners when it comes to your safety. All tandem and triple axle trailers come with two or three brake axles, unlike some of our competitors who cut costs.

8. TIE DOWNS

All of our recessed floor mounted D-rings are thru bolted to a frame welded solid backer (steel or aluminum). This keeps your cargo secure.

9. HEAVY DUTY HINGES**

All ramp doors are standard with heavy duty hinges, grease zerks and a solid 3/4" steel rod for added strength.

*If equipped **Steel frame only

OPTIONS

At LOOK Trailers, your dream trailer can be a reality. Our selection of options is truly as big as your imagination. We know what racers want in a trailer, and offer thousands of options for you to customize your trailer for your specific needs. Our in-house engineering team designs innovative, proprietary options that you will only find with LOOK Trailers. Be sure to check out even more options photos on our website looktrailers.com and start designing your trailer today!

SLIDING RAMP EXTENSION

PATENT PENDING DESIGN

ULTIMATE ESCAPE DOOR: Our new, innovative, patent pending escape door provides the ultimate convenience when hauling your vehicle. Loading your vehicle has never been faster with an attached fender box that lifts automatically with the escape door. The interior camlock draws the door in and provides the ultimate in security and protection. By optioning a curbside door, you eliminate blind spots and hard corners to obtain the widest possible opening. You can load with confidence, even by yourself.
